## Milk Drink Method

1. One pump flavour syrup and roll it around the inside of the plastic cup for decoration.
2. In a 24Oz metal cup we put
  - Riva ice cream (use your measuring cup)
  - Milk (using your measuring cup)
  - Flavour syrup (using your measuring spoon)
  - Malt if desired (using your measuring spoon)
3. Give it a good whiz approx. 5 – 90 seconds depending on formula
4. Add cream and 1/4 tsp dusting of drinking chocolate for decoration if desired.
5. Place on lid & spoon!

NB Min 25-30-minute melt point ideal for home delivery!!! 1US FL oz = 30mls cup sizes will vary depending on brand 100ml ice cream = 63gm
